- Experience in leading subsurface evaluation processes of oil and gas fields in structured basins
- Experience in preparation of subsurface feasibility studies

- Experience in managing seismic campaigns and test drilling designs
- Experience with deep drilling projects and multi-lateral well design
- Minimum Bachelor Degree in Geoscience or similar
- Proven Analytical and problem-solving capabilities
- Excellent communication abilities

About Eavor Technologies Inc.

Eavor (pronounced “Ever”) is a private company founded in 2017 to develop and commercialize disruptive geothermal technology. We mobilize cutting edge oil and gas technology, along with some proprietary solutions, to create the world’s first closed-loop geothermal system. Eavor has successfully built a prototype demonstration facility (“Eavor-Lite”) in Alberta along with our partners. Working with clients and partners, we are progressing a pipeline of commercial projects in Germany, other parts of Europe, the Middle East, Africa, Asia, Australasia and North America.
